SUMMARY

Enthusiastic and hardworking professional committed to continuous learning, growth, and contributing to organizational success

TECHNICAL SKILLS

Programming Languages : HTML, CSS, JavaScript, TypeScript, Python, C, C++, Java
Libraries/Frameworks : Angular, React.js, Node.js, Express.js, Bootstrap, Tailwind CSS
Databases : SQL (MySQL) , NoSQL(MongoDB)
Tools & Platforms : Git, GitHub, Visual Studio Code, IntelliJ IDEA, Postman, Figma, JasperSoft Studio, MySQL Workbench

EXPERIENCE

Executive: Junior Implementation Executive

Nov 2025 - Present

T. H. Systems Pvt.Ltd

Pune, Maharashtra

- Worked on the implementation of HMIS for Government Primary Health Centres (PHCs) under the ZP Pune project.
- Conducted user training and application demonstrations for healthcare professionals including Medical Officers, Doctors, Nurses, Pharmacists, Lab Technicians and other healthcare staff.
- Provided on-site and remote support to ensure smooth adoption and usage of the application.
- Gathered user feedback, tracked issues, and coordinated with the development team for resolution.
- Performed functional testing, manual testing and identified defects to improve application quality.
- Contributed to application enhancements by documenting user requirements and suggestions.
- Worked on Jaspersoft Studio tool to design, developed and customized reports according to project requirements.
- Supported research and education platform projects by managing and validating application data, ensuring accuracy, examination workflows, including question paper creation, assessment processes and completeness of records.

Intern: Software Developer Intern

Jul 2025 - Oct 2025

T. H. Systems Pvt.Ltd

Pune, Maharashtra

- Gained hands-on experience in developing Angular-based web applications, building responsive and dynamic UI components.
- Developing responsive and dynamic UI components using Angular, TypeScript, HTML, and CSS to enhance user experience.
- Worked on Jaspersoft Studio, a desktop-based tool to design detailed report layouts and creating data-driven visualizations, reading and writing SQL queries and worked with MySQL Workbench for database exploration and basic data operations.
- Collaborated with senior developers, assisted with routine development tasks and contribute to daily development activities.

Intern: Full Stack Development using React

Dec 2023 - Jan 2024

Sumago Infotech Pvt.Ltd

Nashik, Maharashtra

- Gained hands-on experience in developing React-based web applications.
- Worked on frontend development using React.js, HTML, CSS, and JavaScript to build responsive and user-friendly interfaces.
- Developed a React-based CRUD application, implementing Create, Read, Update, and Delete functionality with component architecture and state management.

EDUCATION

B. E. (Bachelors of Engineering) in Computer Engineering, SPPU (Savitribai Phule Pune University)

2021 - 2025

Amrutvahini College of Engineering (AVCOE), **SGPA: 8.50**, Secured a **First Class** with **CGPA: 7.30**

Sangamner, Maharashtra

Class XII/HSC (Higher Secondary Certificate), Maharashtra State Board

2019 - 2021

Sahyadri Junior College, Sangamner, Maharashtra, Score: **72.17 %**

Sangamner, Maharashtra

Class X/SSC (Secondary School Certificate), Maharashtra State Board

March 2019

Amrutvahini Model School, Sangamner, Maharashtra, Score: **71.20 %**

Sangamner, Maharashtra

PROJECTS

Handwritten Digit Classification using Convolutional Neural Network | Python, Deep Learning Libraries | [GitHub](#)

Jun 2025

- Utilized Python and deep learning libraries to build, train, and evaluate the model.
- Built a handwritten digit recognition system capable of classifying handwritten digits using Convolutional Neural Network.
- Used the MNIST dataset includes images of handwritten digits (0-9) to train and test the model.

Employee Payroll Management System | Technologies used: HTML, CSS, JavaScript, React.

Jan 2024

- Developed a simple and user-friendly Employee Payroll Management Web Application using HTML, CSS, JavaScript, and React.
- Built a simple web app for managing employee records with CRUD functionality to add, update, view, and delete records.
- Designed interfaces to manage employee details along with payroll information, ensuring data flow and record handling.
- Focused on modular component structure, responsive UI, and easy navigation for improved user experience.

- Weather Web App | Technologies used: HTML, CSS, JavaScript | [GitHub](#)

Jul 2023
- Developed a responsive Weather Web Application using HTML, CSS, and JavaScript to display real-time weather information.
 - Integrated an external weather API to fetch live temperature, humidity, and weather conditions based on user-entered location.
 - Implemented dynamic UI updates and clean layout design for an intuitive and user-friendly experience.

CERTIFICATIONS

- SQL (MySQL), HackerRank [🔗](#)

January 2026
- Complete **Web Development** Course, Udemy [🔗](#)

December 2025
- Angular** The Complete Guide, Udemy [🔗](#)

November 2025
- Introduction to Machine Learning**, Swayam NPTEL (IIT Kharagpur), Scored: 69% [🔗](#)

September 2024
- Python for Data Science**, Swayam NPTEL (IIT Madras), Scored: 66% [🔗](#)

February 2024
- AWS AI-ML** Virtual Internship, AWS Academy, AICTE and EduSkills [🔗](#)

March 2024

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- Awarded a [Certificate](#) of Excellence at "**Amrut Expo 2025**", a Project Exhibition and Competition organized by Amrutvahini College of Engineering (AVCOE) at Sangamner, Maharashtra.

April 2025
- Participated in "[Sumedh-2k24](#)" a technical event organized by the Department of Computer Engineering under the **ISTE (Indian Society for Technical Education)** Student Chapter at Amrutvahini College of Engineering (AVCOE).

February 2024
- Participated in a "**Software Testing Competition**", performing web application testing using Selenium IDE at Amrutvahini College of Engineering (AVCOE) at Sangamner, Maharashtra.

October 2024
